

Strength to Hold. Power to Connect.

Resources, on their own, do not hold value. It takes someone to discover them, nurture them, and deliver them to where they're needed. Only then do they become true power.

We engage with world-class assets, connecting the value chain from upstream to downstream through investment and trading. Because we stand on fair ground, we can bridge gaps others cannot. Because we stand between diverse partners and users, we find the right answer for every moment. Because we hold the assets, we turn the value dormant in the world into power for society.

QUEENSLAND, AUSTRALIA

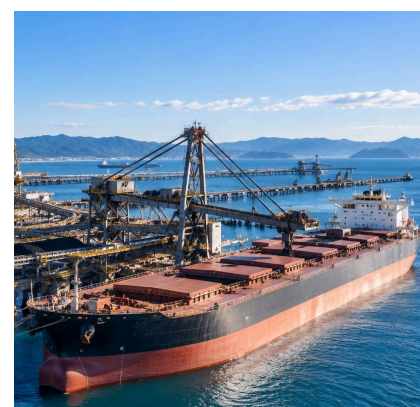

QUALITY

High calorific value and low impurities: a stable supply of high-grade coking coal.

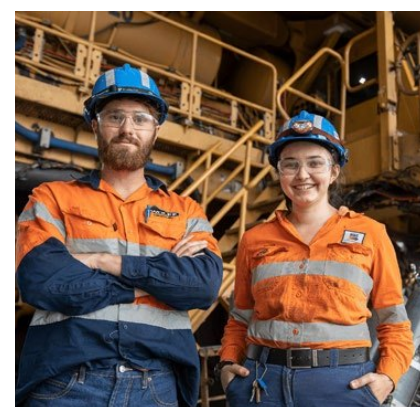

SCALE

Large-scale production and transport infrastructure in the Bowen Basin ensure stable supply.

PARTNERSHIP

Long-standing partnerships build a robust foundation for sustainable growth.

A copper portfolio that powers an electrified society

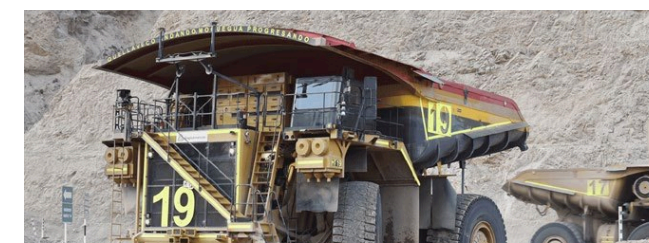

MAJOR MINES IN OUR PORTFOLIO (EXAMPLES)

- | | | |
|----|-------------------------------|--|
| 01 | Escondida
CHILE | One of the largest copper mines in the world |
| 02 | Los Pelambres
CHILE | Long-term supply through stable production and expansion |
| 03 | Antamina
PERU | A high-quality copper and zinc polymetallic mine |
| 04 | Quellaveco
PERU | A large copper mine set to be a next-generation core asset |
| 05 | Others | Expanding the portfolio by capturing growth opportunities |

Low-carbon copper (Green Copper)

A sales network connecting global resources and demand

A SALES NETWORK THAT CONNECTS MARKETS

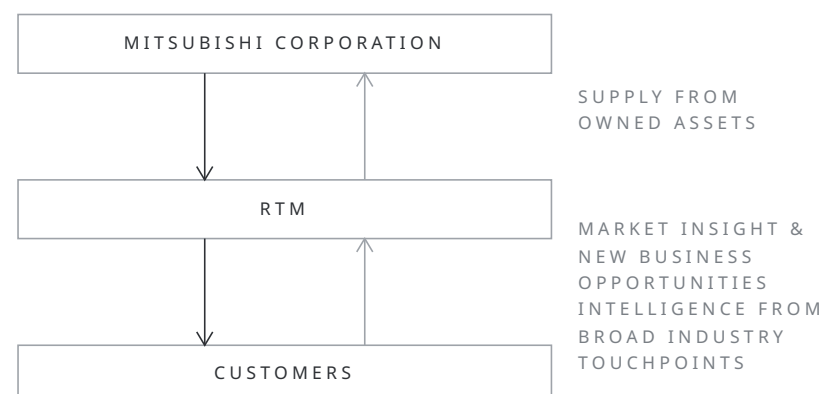

15 industries × 50 countries × ~1,000 companies

GLOBAL NETWORK

10 offices

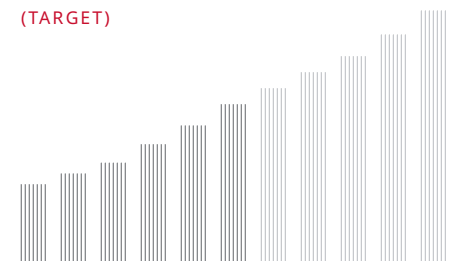

Singapore · Japan · India · China · United States · United Kingdom · UAE · Indonesia · Thailand · Chile

The RtM business model

TRADING PERFORMANCE

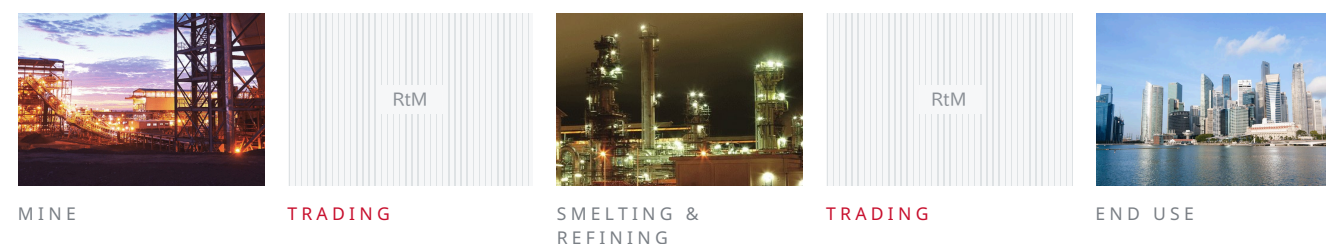

BASE EARNINGS: ¥16-17BN → ¥25BN (TARGET)

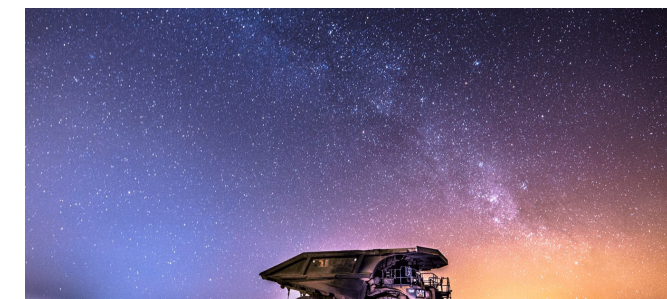

FY20 — FY25 — FY30 (PLAN)

Case: from mine to end user

Expanding the potential of resources

WHERE WE OPERATE

01 EUROPE

Arctial — aluminium
RtM Europe / Triland Metals

02 ASIA

RtM Japan
RtM International
RtM Bharat

03 AUSTRALIA

BMA — coking coal
Aurukun — bauxite
Goongarrie Hub — nickel
MDP

04 NORTH AMERICA

Turnagain — nickel
PAK Lithium
IOC — iron ore
Elemental USA — recycling
RtM Americas

05 CHILE & PERU

Escondida · Los Pelambres
Antamina · Quellaveco
Marimaca · Anglo American Sur
CAP/CMP — iron ore
MCI · MCIP

Sustainably supplying the quality metal resources society needs

GROUP MISSION

“To contribute to a better society by providing a stable and sustainable
supply of the quality metal resources that society needs.”

01

Growing demand

- Global population growth
- Rising metal demand from electrification
and decarbonisation
- Infrastructure development in emerging
economies

02

Supply constraints

- Intensifying competition for quality assets
- Increasing difficulty of mine development
- Growing importance of regulation and
community consent

03

Geopolitics & supply chains

- Rising geopolitical risk
- Increasingly complex supply chains
- Building flexible, resilient supply networks

Our initiatives for social challenges
